

# ACE Safety Academy Ltd – Scheme of Work

**Module Code**

TBVM

**Course Duration**

½ Day

**Qualification Title**

Traffic Banksman / Vehicle Marshalling

**Aims and Objectives**

This course is designed for candidates who have the responsibility for ensuring the safe movement of vehicles on & off-site. Candidates will generate an understanding of the health, safety and communication issues associated with the movement and marshalling of vehicles within a working site. The course also focuses on the importance of visibility taking into account the dangers involved with pedestrians and moving vehicles on & off-site.

**Day / Times**

**TOPIC  
[Including Key Skills / Basic Skills]**

**RESOURCES**

**COMMENTS**

**09.00am – 13.00pm**

**Introduction** – Course Registration, Aims and Objectives

Discuss and understand applicable health & safety legislation for carrying out vehicle marshalling, i.e. The health & safety (safety signs & signals) regulations.

Generate an understanding of ‘Section 7’ of the HSAWA (1974) in relation to the safety of themselves and others / co-workers.

Outline the requirements for conducting risk assessments on site with the ability to perform dynamic risk assessments whilst a vehicle is moving within its associated environment.

Introduce and generate an understanding of the importance of giving clear instructions and communication to the driver of a vehicle when carrying out marshalling duties on site.

Demonstrate effective communication with other workers on site emphasising the main dangers from vehicle movement.

Powerpoint presentation, projector, pens and student handouts.

Suitable classroom if delivered outside Ace head office.

Group discussion to be conducted at the start of the course to enable the course tutor to understand the learners’ experience level. This will be followed by continuous, direct use of Q & A.

A written test consisting of 20 questions followed by a practical assessment to demonstrate the marshalling skills that have been learnt and retained.

	<p>Develop the ability to control moving vehicles on &amp; off-site, focusing on the level of consciousness required at all times to maintain site safety.</p> <p>End of course discussion</p> <p>Close</p>
